

Lodewijk Christoffel Tanamal

Chief Technology / Information Officer • Enterprise Digital Transformation • Indonesia • Open to relocation

[ludwig@ludwig.id] • [+628811133135] • [[LinkedIn](#)]

C-suite technology leader with 20+ years scaling platforms and digital transformation across e-commerce, digital health, manufacturing and marketplace businesses. Track record of tying technology directly to revenue, margin and risk discipline while leading multidisciplinary organisations of 150+. Board-facing, commercially sharp, and ownership-driven at Director/CTO/CIO level.

PROFESSIONAL EXPERIENCE

Nojorono Tobacco International | Head of Information Technology

Indonesia · Nov 2024 – Present

- Lead enterprise ICT strategy across a holding group of 38 subsidiaries, with governance frameworks spanning risk, compliance and security.
- Enabled a 20% group revenue increase within one year through ERP optimisation, data visibility, process digitalisation and cross-entity integration.
- Accountable for a significant group-wide ICT investment portfolio, ensuring budget discipline while modernising infrastructure, ERP, security, and enterprise platforms.

Verum Consulting Indonesia | Co-Founder & Technology Partner

Indonesia · Sep 2024 – Present

- Advise C-suite clients on digital transformation and ICT strategy, building growth-aligned roadmaps and guiding cloud, AI and cybersecurity adoption.

Influx Inc | Head of Product Delivery

Global - Australia / Remote · Jan – Jul 2024

- Led global SaaS delivery across product and platform teams in multiple time zones, lifting delivery performance 10% and accelerating time-to-market.
- Launched a new revenue-generating business unit, fractionaltalent.com.

Kawan Sehat & Infokes Indonesia | Chief Executive Officer (prev. COO)

Indonesia · Jul 2021 – Dec 2023

- Led a national digital health platform (ePuskesmas & eClinic) serving 140M+ users; delivered SaaS transformation across 5,000+ healthcare facilities within two years.
- Achieved 45% gross margin through commercial discipline while client adoption grew exponentially, scaling teams and systems without service degradation.
- Drove M&A due diligence and acquisition of a subsidiary — architecture, operational maturity, financial controls and post-merger integration risk.
- Launched the Klinisia digital health application; maintained 0% attrition through the COVID period and owned technology governance and regulatory compliance.

Bhinneka Mentari Dimensi | Chief Technology Officer

Indonesia · Sep 2016 – Jun 2021

- Owned ICT strategy and technology operations for a large-scale B2B/B2C e-commerce platform, leading 150+ professionals across product, engineering and infrastructure.
- Helped scale the business to its first IDR 2.7 trillion in revenue within three years by aligning platform scalability and digital capability with commercial targets.
- Achieved ISO 27001 and PCI-DSS certification; sustained 99.98% availability and cut time-to-market by 50% through architectural modernisation and DevOps enablement.

OLX Indonesia | Senior Vice President of Infrastructure

Indonesia · Nov 2015 – Aug 2016

- Designed and executed infrastructure supporting 270,000+ concurrent users; led a zero-downtime platform migration and disaster recovery implementation.

EARLIER CAREER (2004 – 2015)

Tokobagus (OLX Indonesia) – Engineering Manager, Team Lead, Senior System Engineer, Indonesia | **Signetique Pte Ltd** – System Engineer, Singapore | **Swift Communication** – System Engineer, Seattle, USA | **Voxa Advertising** – Technical Support, Indonesia

Progressive responsibility across multi-continent data centres (thousands of servers), enterprise systems and infrastructure leadership for large-scale digital platforms.
